

Digital Scanning Service

NationWide
LABORATORIES

No project is too big or too small

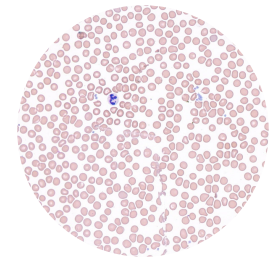

NationWide Laboratories is pleased to offer a high speed and low-cost slide scanning service to professionals and organisations. We guarantee the best quality digital slide scanning solution, using the largest throughput scanner available on the market; the 3DHitech Panoramic P1000 RX scanner. Using our digital slide scanning service gives you all the advantages of digital pathology without the high-cost investment

Benefits

- The highest resolution scanning available today - 82x water immersion
- Brightfield scanning at resolutions of 20x, 40x, including whole slide scanning
- Z stack and extended focus scanning options available too
- High throughput and quick turnaround service
- Our specialist service allows the highest quality images but without the large file sizes often associated with scanned images.
- Digitisation of slides allows for efficient sharing of images, whether that be with a colleague for preparing for publication or presentation
- Archiving and convenient storage of digital images vs onsite storage of glass allows for centralisation, control and to security of your images

Histology section of a kidney showing clear glomerulus

Haematology scan at 80x: red cells, platelets and a neutrophil which demonstrates a Barr body ('Drumstick')

Service

- All you need to do is send us your glass slides and in return you will receive the high-resolution digital images either from as a cloud storage link or physical hard drive
- 30-day image storage is included; extended image storage options are available
- A range of image types are available
- Low-cost and rapid turnaround service

Contact us to discuss your project and to take advantage of the high-quality slide scanning service
